

Are you a family day care educator? How have you been impacted by COVID-19?

The pandemic is having unprecedented effects on communities nationally and around the world. Many of those working in family day care have been significantly impacted, with many having to close their business.

A study is now being conducted into understanding the effect of COVID-19 on small business owners working in family day care and you're invited to take part and share your experience on how the pandemic has affected your business.

Findings of the study will be used to help inform and develop new programs tailored to the mental health needs of you and other small business owners working in family day care.
